# Wireline Revenues

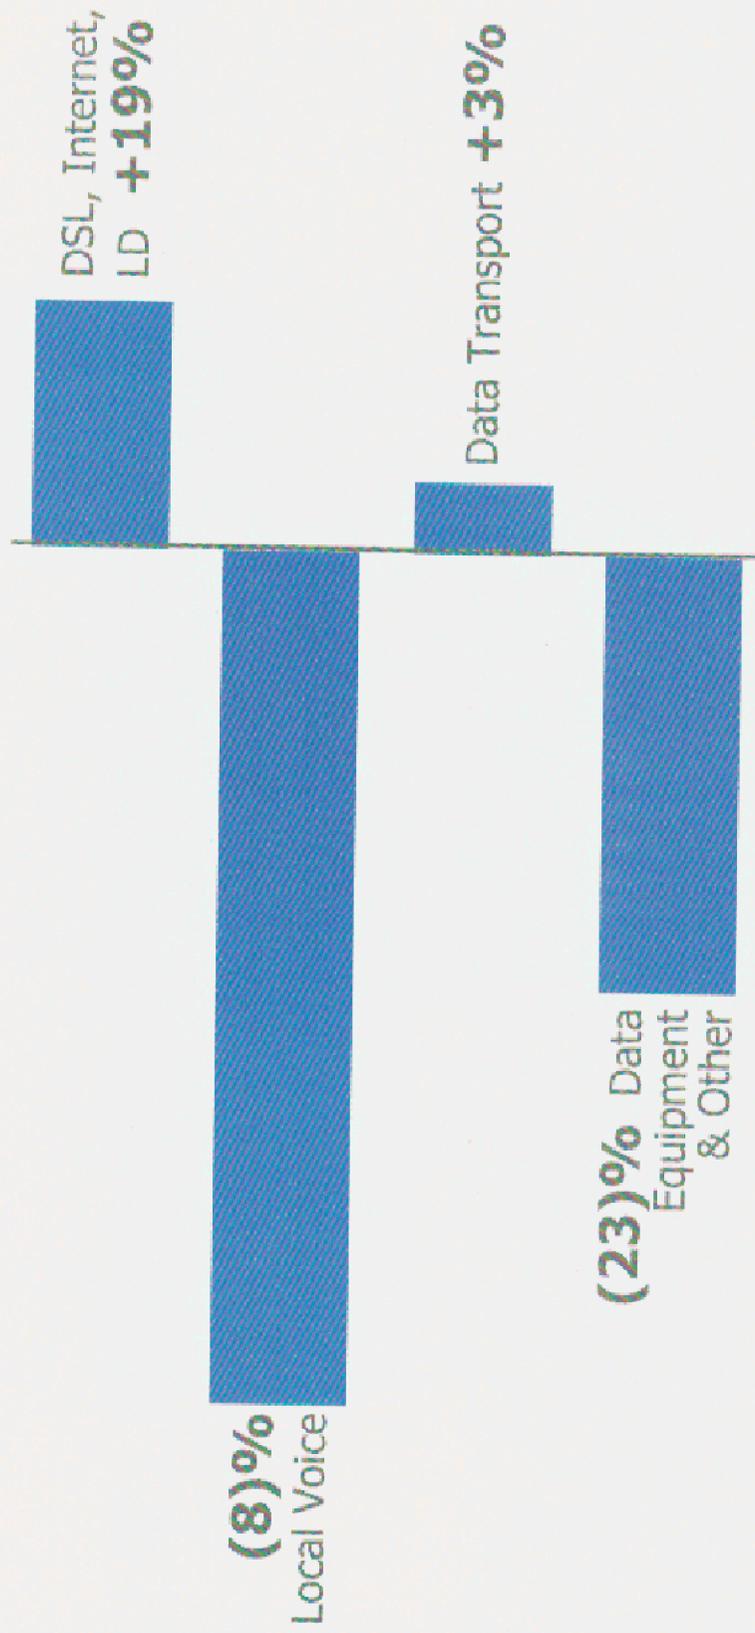

SBC Wireline Revenues,  
YOY Growth Rates

- Down more than \$1 billion over the past three quarters.
- More than half of that loss came in the most recent quarter.
- Assuming annual revenue declines continue at current pace (5.8)% -- no further acceleration -- over the next four quarters, we will lose another \$2.3 billion from our wireline revenue stream.

# UNE-P Adoption

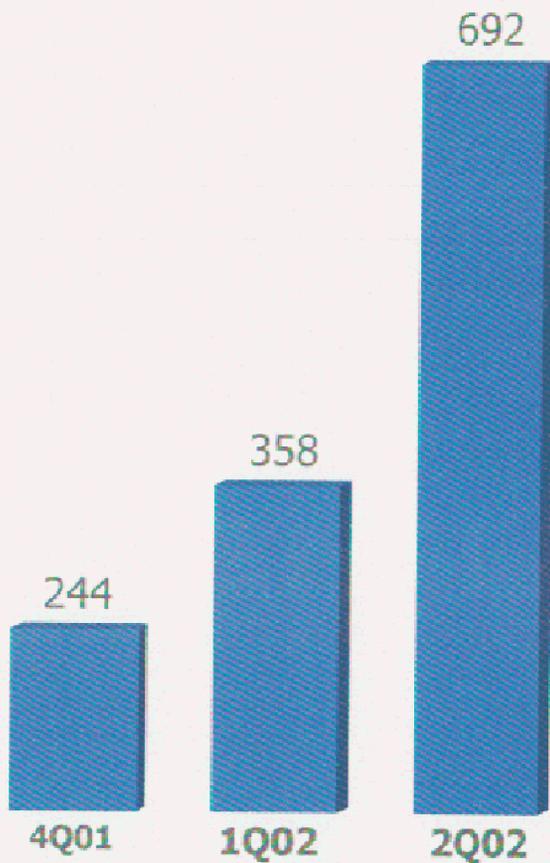

SBC UNE-P Lines In Service  
2Q 2002  
(in thousands)

- Over the past year, UNE-P lines in service have doubled.
- We have lost 3.5 million lines... nearly equivalent to losing the state of Ohio.
- SBC still has 1 million resale lines likely to be converted to UNE-P.
- SBC's market share is currently 85%. Projected to be 66% by end of 2003.

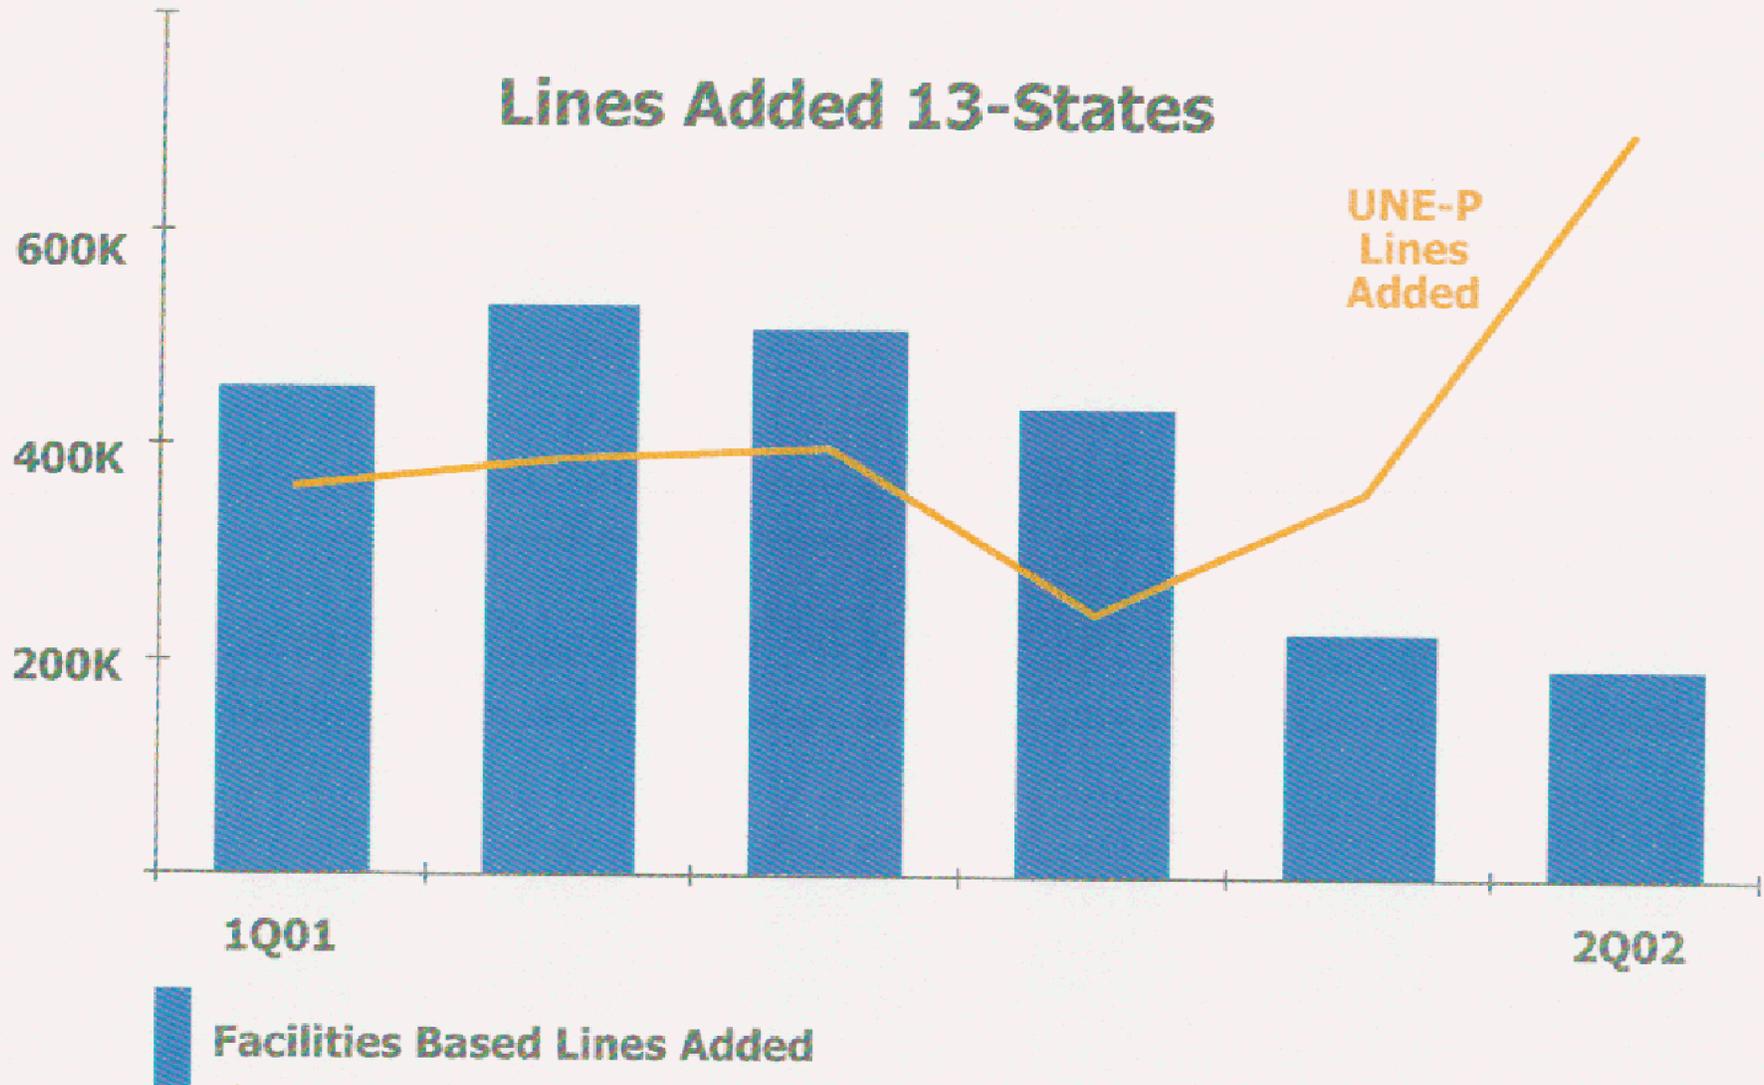

# UNE-P Acceleration

**SBC UNE-P Lines Added  
Per Quarter – 13 States**  
(in thousands)

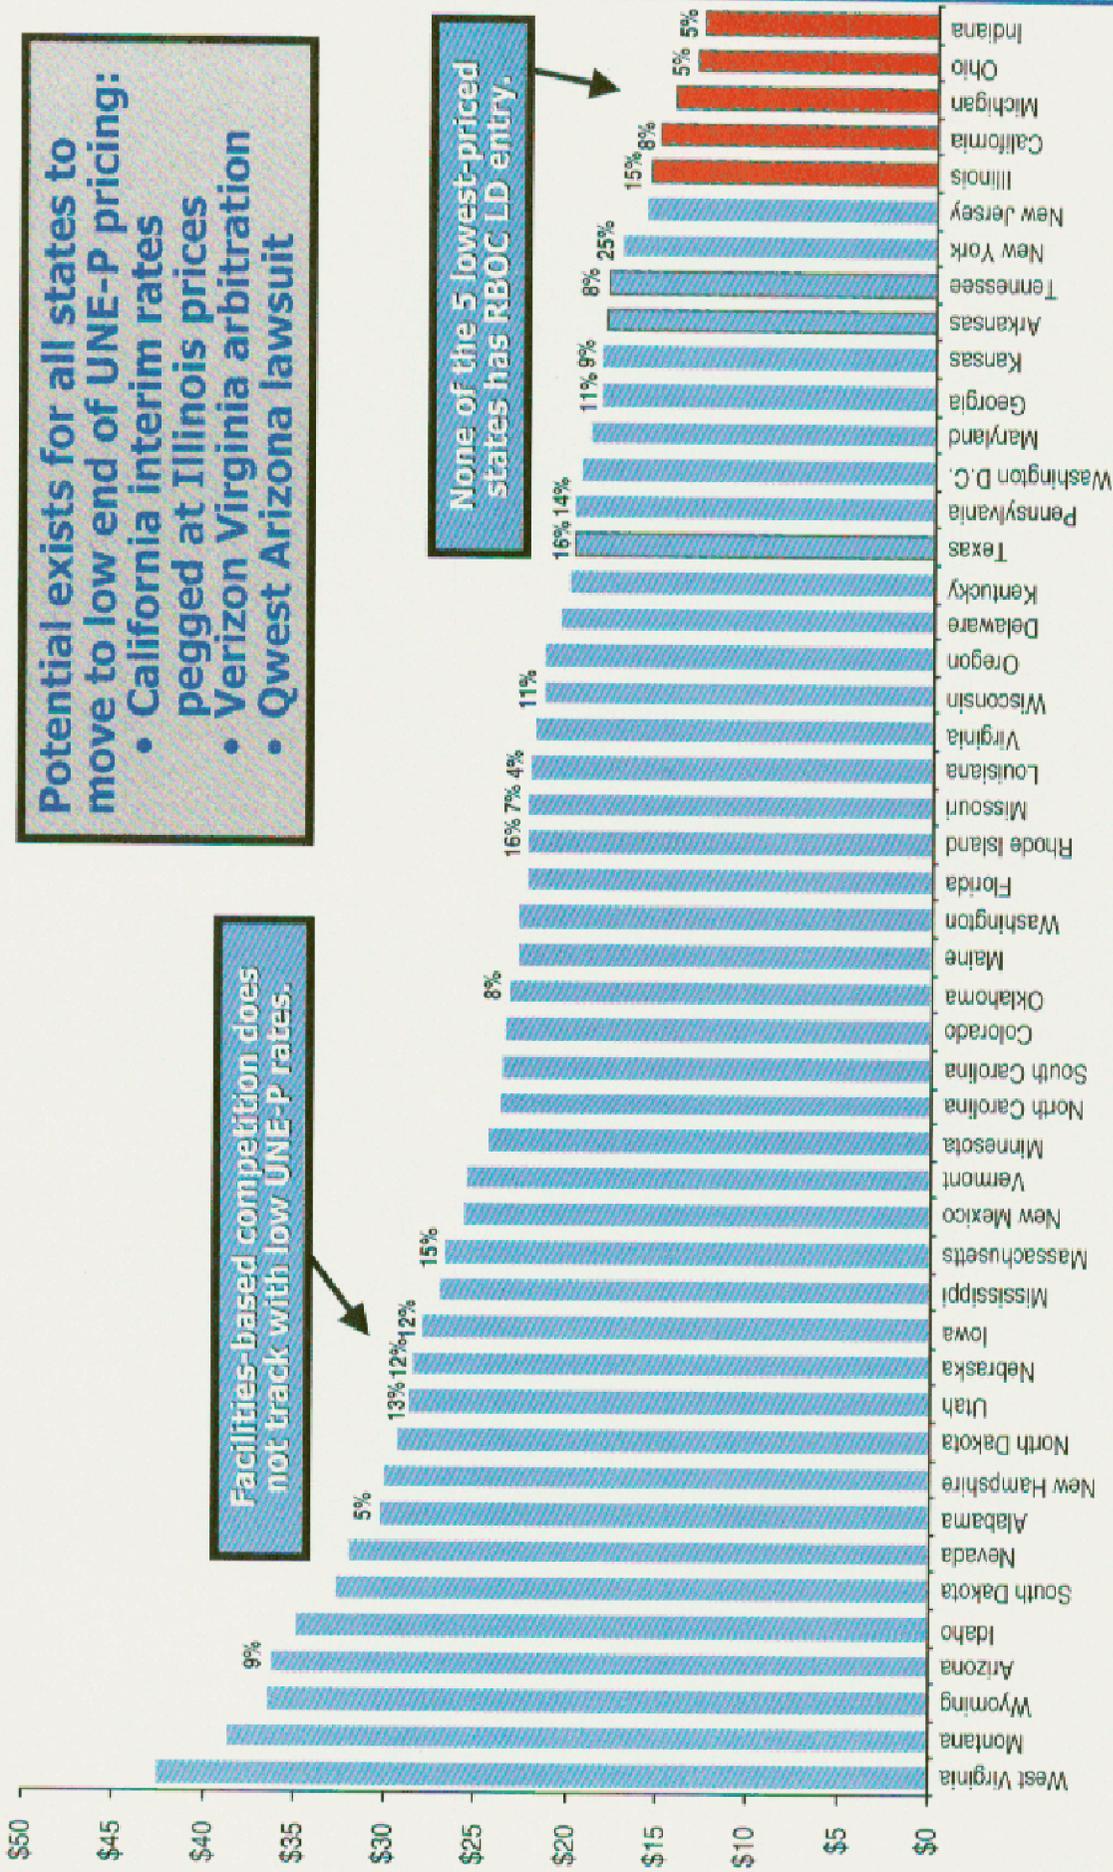

- SBC loses 12,000 lines per day to UNE-P. Projected to be 29,000 per day by end of 2003.
- UNE-P lines added in 2Q02 were more than 70% greater than any previous quarter.
- As states have dropped prices, facilities-based competition has lagged and UNE-P has become the dominant means to compete with SBC.

# Competition Trends

# The Five Lowest-Priced UNE-P States Are All SBC Markets

Potential exists for all states to move to low end of UNE-P pricing:

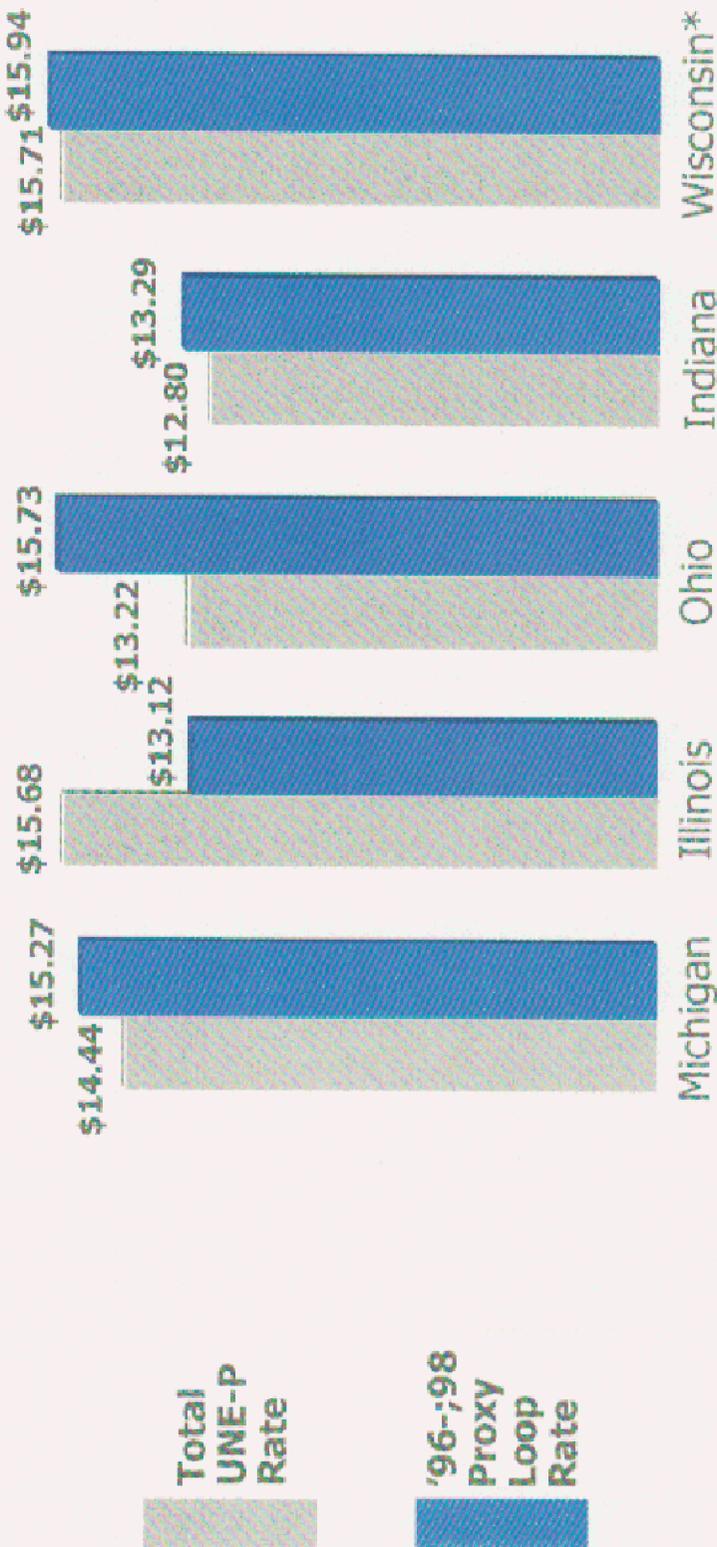

- California interim rates pegged at Illinois prices
- Verizon Virginia arbitration
- Qwest Arizona lawsuit

Facilities-based competition does not track with low UNE-P rates.

None of the 5 lowest-priced states has RBOC LD entry.

# UNE-P Predominantly Used by the Two Largest IXCs

SBC UNE-P Lines Added Per Quarter

- More than 70% of SBC's UNE-P lines added in 2Q02 were for the two largest IXCs.
- From 1Q02 to 2Q02, UNE-P lines added for AT&T and WorldCom/MCI tripled while UNE-Ps added for others actually declined.
- WorldCom receivables to SBC and its affiliates have grown to more than \$400 million.

# Dominant Use of UNE-P: To Target Residential Customers

SBC UNE-P Lines In Service  
SBC's Four Largest UNE-P States

- Across SBC's 13 states, more than 70% of all UNE-P lines are residential.
- In SBC's four largest UNE-P states, which have been targeted most aggressively by the large IXCs, residential customers represent an even higher percentage of total UNE-Ps.

# IXC Lead Offers

(Ameritech states)

- MCI's offer is their lead offering "Neighborhood Complete" at \$49.99

- AT&T's offer includes their lead local "Call Plan Unlimited with 3 Feature Package Enhanced" at \$29.95-34.95 and their long distance offer "Unlimited Plan" at \$19.95. Offered in IL, OH and MI.

# SBC Provides Residential Universal Service While IXC's "Cherry Pick" Profits

IXC offers target premium customers rather than universal service.

## Ameritech Residential Customer Spending

|                   | Ave Rev per Line | % of Total SBC Revenue | % of Total SBC Profit |
|-------------------|------------------|------------------------|-----------------------|
| IXCs → Quartile 1 | \$43-\$54        | 36%                    | 72%                   |
| IXCs → Quartile 2 | \$36-\$43        | 29%                    | 41%                   |
| SBC → Quartile 3  | \$24-\$36        | 21%                    | 9%                    |
| SBC → Quartile 4  | \$0-\$24         | 14%                    | (22)%                 |

SBC's resulting customer base will be unprofitable, with no funds for investment.

# Clear IXC Strategy

## No Capital Investment

"... gives AT&T Consumer unmatched leverage to create offers ... **without making economic sacrifices.**"

*Betsy Bernard,  
President, AT&T Consumer*

"We're profitable everywhere we sell because we limit ... where we sell based on cost.... [W]e're **deploying very little capital** to make it work."

*Wayne Huyard  
COO, MCI*

"We do not expect that the growth of our business will require the levels of capital investment in fiber optics

and switches that existed in historical telecommunications facilities-based models."

*10-Q Filing  
Z-Tel*

## High Margins, Low Risk

"Our principle of maximizing cash requires that we only enter states that meet our gross margin requirements."

"We are not going into states where we don't have a **gross margin of 45%** on the local ...."

*Betsy Bernard,  
President, AT&T Consumer*

# Capital Market Reaction

## Stock Prices

|      | Before UBS<br>Warburg Report<br>(08/19/02) | After UBS<br>Warburg Report<br>(08/23/02) | Percent Change |
|------|--|---|----------------|

"We believe SBC has the most attractive region for UNE-P providers. SBC takes the hardest hit for each retail line lost to UNE-P competitors ... SBC has lost more retail lines to UNE-P than any other Bell, at 3.45 million... [and we] expect SBC to lose 1 million retail lines to UNE-P in the third quarter of 2002."

- UBS Warburg

# Summary

**Bill Daley**  
**President**  
**SBC Communications Inc.**

# Impacts

- **Reduced Service Quality**
- **Reduced Ability to Provide Service to all Customers**
- **No Incentive To Invest in Networks**
- **Eliminated Jobs**
- **Slower Deployment of New Services**
- **Increased Cost of Capital**
- **Weakened Equipment Suppliers**

# Next Steps

- **Current regulatory regime regarding UNE-P and pricing is unsustainable**
- **Turmoil in industry calls for quick and decisive action**
- **As long as we have carrier of last resort obligations, prices must be set to recover our costs**
- **There are many ways to solve this problem, but time is extremely short. Whatever direction the FCC moves, it must be effective in a very short period of time**
